

Dear Parents,

Your kindergartener normally attends music for two class periods per week, so I have planned two music sessions for the coming week. Each one is short enough to complete in one session. Repetition is essential for continued skill development, so work concepts into other content areas and everyday life. I will send a new pair of lessons Monday of each week.

Below is a chart of locomotor movements we will use throughout our “hiatus”.

Kind regards,
Mrs. Holly Leach
hleach@gaschool.org

Choose a locomotor way to move. Can you think of other ways?

walk	fly	tiptoe	skip
leap	jump	creep	slink
slide	hop	march	stomp
gallop	slither	waddle	stroll
jog	meander	stagger	Frankenstein

Think about using different levels (high, medium, low), pathways (straight, curvy, zig zag), and efforts (strong, light, sudden, sustained). Stay in your own space.
